87. Registrant agrees that indemnification obligations survive termination or expiration of the Registrar-Registrant Agreement between Registrar and Registry.
88. Registrant shall comply with each of the following term, conditions and requirements;
 - 88.1. ICANN standards, policies, procedures, and practices as may be adopted or amended from time to time.

Additional or revised ICM operational standards, policies, procedures, and practices for the Registry TLD shall be effective upon thirty(30) days notice by ICM to Registrar and/or by ICM posting such changed documents on the Registry Website, as applicable.

If there is a discrepancy between the terms required by the terms of the Registrar-Registrant Agreement and the terms of the Registry-Registrar Agreement the Registry-Registrar Agreement shall supersede and prevail.

- 88.3. Registrant shall not distribute malware, abusively operate botnets, phishing, piracy, trademark or copyright infringement, fraudulent or deceptive practices, counterfeiting or otherwise engaging in activity contrary to applicable law. Registrar may suspend domain names involved.

89. All ICM policies, procedures, and practices for its Limited Registration period, referred to as either the "Sunrise B Program" and/or the "Domain Matching Program". As further described in Registry Policies, Registrar agrees to provide its existing customer(s) who successfully applied for a Sunrise B reservation under the .XXX Sunrise B launch program an opportunity to register available second level domain name(s) in the Registry TLD as long as the second level of that domain name directly matches the second level of the .XXX domain name that was reserved by ICM Registry, LLC on behalf of such customer's reservation request; Registrar will provide these registrations to its customers on a first come, first served basis. As further described in Registry Policies, Registrar agrees to provide its existing .XXX Registrants an opportunity to register available second level domain name(s) in the Registry TLD as long as the second level of that domain name directly matches the second level of the registrant's existing .XXX domain name registration with Registrar.

For the purpose of both the Sunrise B Program and the Domain Matching Program referenced in this section, available second level domain names are domain names in the Registry TLD that are available after the Registry TLD TMCH Sunrise Period and that are not reserved by the Registry for any reason, including without limitation for the Registry TLD Premium Name list.

Registrar agrees that it will only sell a second level domain name in the Registry TLD to a potential registrant if it is the same registrant of record of the directly matching second level domain name in the .XXX TLD, or if it is a customer of Registrar's who previously and successfully applied for a Sunrise B reservation of the directly matching second level domain name in the .XXX TLD through Registrar's services. At all times, ICM retains the full rights and ability to correct any mistakes and/or errors.

90. Registrant agrees to the use, copying, distribution, publication, modification and other processing of Registrant's Personal Data by ICM and its designees and agents in a manner consistent with the purposes specified pursuant to this Agreement, including without limitation Sections 2.6, 3.1, 3.4 and 3.8. 3.7.2. of the Registry Registrar Agreement. Settlement of domain name disputes

93. For the settlement of domain name disputes, the Registrar follows the Uniform Domain Name Dispute Resolution Policy on the ICANN website (www.icann.org/general/consensus-policies.htm), supplemented by the Dispute Resolution Procedure (<http://www.theregistrarcompany.com/pdf/Whitlabel-Dispute-Policy-v2.1-en.pdf>)

Escrow

94. The Registrar limits the risk of loss and/or corruption of the data by backing it up locally every 24 hours and by ensuring that a prominent escrow service makes daily backups of all contact profiles, name server profiles and domain names.

WHOIS status

95. Registrar may apply domain statuses such as "ClientTransferProhibited" by default, to prevent unauthorised transfers. Registrar will change this status on request of Registrant.
